Enrollment Complete!!!

Final Enrollment: 2204

I just wanted to take a moment and **THANK YOU** for the exceptional work that has been done by the study coordinators and investigators over the last couple of months. I have to admit that there were times 2-3 years ago when I was seriously concerned that we would never reach this mark. Undertaking a huge clinical trial of such importance is not easy, but the bottom line is you did it!

The **yellow jersey** proudly remains with the team in Novosibirsk with a commanding final enrollment of **147** (2.29 monthly rate). There was a fierce race between Tris Bahnson's Duke team and Jared Bunch's IHC group. Both teams were neck-in-neck going down the home stretch, with Jared's group pulling ahead at the finish line winning by a nose. A special note goes to Christopher

Piorkowski and team from Dresden, Germany. They lead the entire trial with a monthly enrollment rate of **2.75**.

I am incredibly appreciative of all the time and effort this trial has taken. I know it has taken investigator time, but I have to say an extra thanks to the study coordinators who have, with great determination, enabled us to reach our enrollment goal.

Thanks again! Doug

Doug Packer, MD
Principal Investigator

Celebrate!!!

CABANA Investigator Meeting

Thursday May 5, 2016

6:30 – 8:00 p.m.

Meeting Highlights:

Thank YOU!!
